Meet Our Co-Editor

Dr. Nafees Ahmad
Department of Immunobiology, University of Arizona
Tucson, AZ, USA

Dr. Nafees Ahmad is Professor of Immunobiology and Director of Immunity and Infection at the College of Medicine, University of Arizona in Tucson, Arizona. He obtained his undergraduate and postgraduate education from the Aligarh Muslim University, India and doctorate from the Central Drug Research Institute, Lucknow, India. He completed his postdoctoral fellowship in HIV/AIDS from the National Institutes of Health, Bethesda, Maryland, USA. His research has focused on mechanisms of HIV immunopathogenesis in younger and older HIV-infected patients, including the HIV-mediated aging of the immune system. He is investigating the mechanisms of differential HIV-1 infection in younger and older populations, including the role of viral and host factors and dysregulation of T cell functions. He has authored more than 100 publications and prestigious medical school textbook “Sherris Medical Microbiology”.
