Meet Our Associate Editor

Dr. Ramón Cacabelos
EuroEspes Biomedical Research Center
Institute of Medical Science and Genomic Medicine
Corunna, Spain

Dr. Ramón Cacabelos is a Professor of Genomic Medicine and the President of the EuroEspes Biomedical Research Center, Corunna, Spain. He received his M.D. from Oviedo University, Ph.D. from Santiago University, and D.M.Sci. (Psychiatry) from Osaka University Medical School, Osaka, Japan. After a decade at the Department of Psychiatry in Osaka, he returned to Spain and focused his research activity on the genomics and pharmacogenomics of neurodegenerative disorders. He has published over 600 papers and 24 books, is the Editor-in-Chief of the first World Guide for Drug Use and Pharmacogenomics, and is the President of the World Association of Genomic Medicine.

Dr. Cacabelos is currently an associate editor of this journal (Current Pharmacogenomics and Personalized Medicine), published by Bentham Science Publishers.
