Aims & Scope

Current Drug Delivery aims to publish peer-reviewed articles, research articles, short and in-depth reviews, and drug clinical trials studies in the rapidly developing field of drug delivery. Modern drug research aims to build delivery properties of a drug at the design phase, however in many cases this idea cannot be met and the development of delivery systems becomes as important as the development of the drugs themselves.

The journal is essential for all pharmaceutical scientists involved in drug design, development and delivery.

- Publishing Peer Reviewed Articles Rapidly
- Available in Print & Online
- Abstracted in SCI Expanded, BIOSIS Previews, BIOISIS Reviews Reports and Meetings, MEDLINE and more...
- Free Online Trials for Institutions
- Go Online to Get Your FREE Sample Copy
