Dr. M.P. Molloy

Macquarie University
Sydney, NSW
Australia

Associate Professor Molloy is the Director of the Australian Proteome Analysis Facility, Macquarie University, Sydney, Australia. He has over 20 years of expertise in the application of proteomics and mass spectrometry for biomedical research. Molloy was a research fellow at the University of Michigan Medical School and a Senior Principal Scientist at Pfizer Inc., using proteomics for drug discovery. He has over 100 publications where his research is focused on new method development and applications of proteomics in translational cancer research.
