RETRACTED: Titanium and Vanadium Complexes as Anticancer Agents

Irena Kostova*

Department of Chemistry, Faculty of Pharmacy, Medical University, Sofia 1000, Bulgaria

The article entitled “Titanium and vanadium complexes as anticancer agents”, by Kostova I., has been retracted. Kindly see Bentham Science Policy on Article retraction at the link given below:

(https://benthamscience.com/journals/anti-cancer-agents-in-medicinal-chemistry/author-guidelines/). This article has been retracted on the request of the Editor.

The authors have plagiarized a paper that had already been published in the journal Current Medicinal Chemistry, 2000, 7(12), 1289-1303. https://www.eurekaselect.com/65771/article.

It is a pre-requisite for authors to declare explicitly that their work is original and has not been published elsewhere. Authors are advised to properly cite the original source to avoid plagiarism and copyright violation. As such this article represents a severe abuse of the scientific publishing system. Bentham Science Publishers takes a very strong view on this matter and apologizes to the readers of the journal for any inconvenience this may cause.

Bentham Science Disclaimer

It is a condition of publication that manuscripts submitted to this journal have not been published and will not be simultaneously submitted or published elsewhere. Furthermore, any data, illustration, structure or table that has been published elsewhere must be reported, and copyright permission for reproduction must be obtained. Plagiarism is strictly forbidden, and by submitting the article for publication the authors agree that the publishers have the legal right to take appropriate action against the authors, if plagiarism or fabricated information is discovered. By submitting a manuscript, the authors agree that the copyright of their article is transferred to the publishers if and when the article is accepted for publication.
