**Dr. Veysel Kayser**
Sydney School of Pharmacy
University of Sydney
Australia

Veysel Kayser is an Associate Professor in the Sydney School of Pharmacy at the University of Sydney. He received his B.Sc. from Hacettepe University (Turkey), Ph.D. from the University of Leeds (UK). He then performed post-doctoral research at the Max-Planck Institute (Germany) and at MIT (US). Before joining the University of Sydney, he was a senior staff scientist at MIT. His research focuses on the development of novel vaccines such as influenza vaccine, and biologics including monoclonal antibodies, ADCs, and bispecifics.
