JOURNAL OF FUZZY LOGIC AND MODELING IN ENGINEERING

Aims & Scope

The purpose of the Journal of Fuzzy Logic and Modeling in Engineering is to publish recent advancements in the theory of fuzzy sets and disseminate the results of these advancements. The journal focuses on the disciplines of industrial engineering, control engineering, computer science, electrical engineering, mechanical engineering, civil engineering, management engineering and others. The scope of the journal involves fuzzy theory and applications in every branch of science and technology.

Original research articles and reviews in the following areas of the fuzzy set theory are of special interest to the readers of this journal:

- Computing with Words and Granular Computing
- Extensions of fuzzy sets: intuitionistic fuzzy sets, hesitant fuzzy sets, neutrosophic sets, spherical fuzzy sets.
- Fuzzy Clustering
- Fuzzy Control
- Fuzzy Data Analysis, Fuzzy Clustering, Classification and Pattern Recognition
- Fuzzy Database
- Fuzzy Decision Making and Decision Support Systems
- Fuzzy Expert System
- Fuzzy Logic Systems
- Fuzzy Logic Techniques and Algorithms
- and more
