## Aims & Scope

*Recent Advances in Drug Delivery and Formulation* publishes editorials, mini-reviews, full-length research and review articles, and short technical notes from academia, industry, and regulatory agencies worldwide. The journal's scope covers topics related to preformulation, formulation development, manufacturing technologies, biopharmaceutics, and regulatory science of both small molecules and biomolecules. These areas include, but are not limited to, pharmaceutical nanotechnology, quality by design and process analytical technology, biosimilars and biowaivers, and simulation modeling. The journal also publishes guest-edited thematic issues by eminent
