Editor-in-Chief
Tianhong Dai, United States

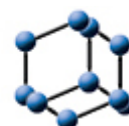

ISSN: 2772-4344 (Print)
ISSN: 2772-4352 (Online)

Aims & Scope

Recent Advances in Anti-Infective Drug Discovery publishes review and research articles, drug clinical trial studies and guest edited thematic issues on recent patents in the field of anti-infective drug discovery e.g. on novel bioactive compounds, analogs & targets. The journal is essential reading for all researchers involved in anti-infective drug design and discovery. The journal also covers recent research in fast emerging therapeutic areas/targets & therapeutic agents related to anti-infective drug discovery. All aspects related to viral or bacterial diseases including HIV, AIDS and other sexually transmitted diseases (STDs) are also included in the scope of the journal.
