## Aims & Scope

**Current Neuropharmacology** aims to provide current, comprehensive/mini-reviews. The reviews cover the fields of molecular, cellular, and systems/behavioural aspects of neuropharmacology and neuroscience. Moreover, position papers and research articles/clinical trials of great novelty and scientific interest might occasionally be considered for publication, along with guest-edited issues on all areas of neuropharmacology and neuroscience.

**Current Neuropharmacology** is an international, peer-reviewed journal on all aspects of Neuropharmacology, published monthly (print & online) by Bentham Science Publishers. ....Read more
